PT. POETRI ARTHA BANGUN SEJAHTERA YOUR TRUSTED PARTNER

PT. PT. Poetri Artha Bangun Sejahtera provides specialized tank cleaning services for fuel, chemical, and water storage tanks, adhering to the highest industry and safety standards. The process begins with an initial inspection to assess the tank's condition and determine specific cleaning requirements. Once assessed, our team prepares the necessary tools, such as high-pressure washers and eco-friendly cleaning agents, while ensuring all safety equipment is in place. During the cleaning process, we use advanced techniques like high-pressure jets and mechanical scrubbing to thoroughly remove sludge, rust, and contaminants. Collected waste is then managed responsibly, following environmental regulations. After cleaning, a final inspection is conducted to ensure the tank is spotless and ready for use, and a comprehensive report is provided to the client.

SHIP AGENCY

As a trusted ship agency, PT. Poetri Artha Bangun Sejahtera ensures seamless port operations and efficient vessel management. Our services begin with pre-arrival coordination, where we communicate with port authorities to secure berthing schedules and manage all necessary documentation. During the vessel's stay, we oversee cargo handling, bunkering, provisioning, and crew changes, ensuring compliance with immigration and customs requirements. Onboard assistance is provided during inspections and for any emergency needs. Before departure, we settle port fees, confirm clearances, and provide clients with a detailed operational report, ensuring a smooth departure and optimal turnaround time.

MANPOWER

PT. Poetri Artha Bangun Sejahtera offers skilled manpower solutions tailored to the specific operational needs of vessels. Our recruitment process involves identifying qualified candidates, verifying certifications, and assessing maritime experience to match the unique requirements of our clients. To ensure high performance, we provide additional training, focusing on technical skills, navigation, engineering, and safety protocols. Once the crew is selected, we handle onboarding logistics, including medical checks and visa arrangements. During deployment, we maintain close communication with both clients and crew to address any operational needs, ensuring consistent performance throughout the contract period. Regular evaluations are conducted to ensure that the highest standards of service are maintained.

SCRAP

In the export-import trade sector, PT. Poetri Artha Bangun Sejahtera specializes in the buying and selling of high-quality scrap metals and providing ship dismantling, building demolition, and warehouse deconstruction services. As a core activity, we focus on handling scrap metals, primarily sourced from dismantled ships, buildings, and other structures. We purchase and process these materials, ensuring they meet industry standards, and then resell them to domestic and international markets.

The process begins with a comprehensive inspection of materials or structures to assess quality and operational requirements. Based on this assessment, a detailed project plan is developed, covering logistics, equipment allocation, and safety measures. During the execution phase, our experienced team utilizes advanced tools and techniques to safely dismantle ships or demolish buildings while minimizing environmental impact. Recovered materials, such as steel, copper, aluminum, and other metals, are sorted and processed for resale or recycling, ensuring maximum resource recovery. Non-recyclable waste is disposed of responsibly, in compliance with environmental regulations.

Clients benefit from a streamlined process that prioritizes efficiency, safety, and environmental sustainability, while contributing to a circular economy through the responsible trade and recycling of scrap metals.
